

## **Energy Florida Financing Solutions**

Energy Florida has extensive experience in supporting finance solutions for corporate growth, energy efficiency and renewable power projects, as well as new manufacturing technologies and facilities.

### Corporate and Project Finance Solutions:

The services and financing resources that the Energy Florida team has helped coordinate on behalf of partners include:

- Introductions to private equity and strategic corporate investment groups
- Foreign Direct Investment through the EB-5 Energy Fund (leveraging the EB-5 visa waiver program)
- Equipment and working capital finance
- Small Business Administration lending
- Identification, application and administrative services for Federal and state grants
- Loan Guarantee programs for rural or energy-related development projects
- Access to matching grant funding available from state resources and philanthropic organizations
- Securing applicable rebates and tax credits for energy efficiency and renewable energy projects
- Infrastructure financing (sale-leaseback programs) available through Space Florida and other public-private partnerships
- Issuance of tax-exempt Industrial Development Bonds for industrial facility construction or re-development

### Energy Efficiency Financing Solutions:

- Green Community Development Finance Institutions (CDFIs)
- Equipment Leasing programs
- Commercial Property Assessed Clean Energy programs
- On-Bill Repayment programs
- Qualified Energy Conservation Bonds

For more information regarding how these or other financing options may be able to help you meet your business goals, please don't hesitate to contact our team at 321-613-2973 or via email at [bennett.boucher@energyflorida.org](mailto:bennett.boucher@energyflorida.org)
